Creating and Sustaining Resilient Values
Dhanu Sankar

Dear friends,
The world is a beautiful place, but it is also a place of constant change. We are living in a time of great uncertainty, and it is important that we have a strong foundation of values to help us navigate these challenges.

Values are the principles that guide our actions and decisions. They are the things that we hold dear and that we strive to live by. Values are what give our lives meaning and purpose. They are the things that we want to pass on to our children and to the world.

There are many different values, but some of the most important ones are honesty, integrity, respect, and compassion. These values are the foundation of a good society, and they are the things that we need to build a better world for ourselves and for future generations.

It is our responsibility to create and sustain these values. We must live by them ourselves, and we must teach them to our children. We must stand up for them when they are threatened, and we must work to make them a part of our culture.

Let us all commit to creating and sustaining resilient values. Let us all strive to be the best version of ourselves, and let us all work to make the world a better place for everyone.
